IN FRENCH WINE RIOTS

Flame of Anger Burst Out All the More
Fiercely This Morning, and French
Government Sends Troops to
Quell Disturbance.

Eperney, France, April 13.—Despite the fact that almost every village in the department of Marne was bivouacked through the night with infantrymen and dragoons, champagne rioting broke out today and the flame of anger and vengeance continues to sweep the grape-growing region. At Vinay, the rioters demolished the wine presses and burned the buildings. Women are foremost in the work of destruction, urging the men on in the work of destroying the wine property.

When the troops reached Vinay, the women lay down in the roads and defied the cavalry to ride over them. Eventually, the troops succeeded in getting control of the situation and dispersed the manifestants. At dawn many places in the wine-growing district showed the horizon darkened by the smoking ruins of the wine depots, burned during the night.

The frenzy of the rioters exceeds all bounds, and it is feared that they will use dynamite, a large quantity of which disappeared from the quarries last week. News comes from the town of Ay that a bomb was thrown at the cavalry, wounding three troopers and killing a horse.

Altogether, five establishments in Eperney have been practically torn down, after having been pillaged. The safes in these establishments were forced, and the furniture and fittings were piled up in heaps in the streets and set on fire. The firemen were driven off by the rioters.

Paris, April 13.—The storm raised by the vote in the Senate Tuesday, reopening the delimitation question with reference to the champagne districts, gave no signs of abating at the present. On the contrary, there seems a probability of the disturbances spreading in the Bordeaux wine region. A serious agitation has already broken out in the Charente, Dordogne, Lot and Garonne departments, whose situation with respect to the delimitation of the Bordeaux region would be followed by the gravest consequences.

The latest despatches from the champagne district describe the situation as greatly aggravated. Mobs continue to burn and ravage the property of unpopular merchants, whom they accuse of importing grapes from Aube and other departments from which they manufacture a wine designated as "marne champagne." The authorities are rushing reinforcements of troops to the affected centers, but the movement of the wine growers has been so skillfully organized that the destruction has been done and the rioters have gone before the troops reached the scene.

The champagne question formed the subject of the debate in the chamber of deputies yesterday, and after listening to the statement of Premier Monis, the chamber voted confidence in the government, practically unanimously, so that the Senate's resolution is not legally effective. The premier maintained his decision to refer the matter of the modification of the limitation law to the council of state, France's highest administrative court, which he said might be trusted to pronounce on this grave question with entire impartiality and independence of judgment.

The cabinet met late last night and decided to place at the disposal of the prefect of Marne all the troops he needs. He has at present eight regiments of cavalry and three of infantry, and orders have been sent to four more regiments of cavalry and one of infantry to proceed at once to Eperney.

OBJECT TO ALIENISTS.

Who Have Been Designated to Examine Harry Thaw.

New York, April 13.—Harry K. Thaw will not be examined by Carlos MacDonald and Austin Flint, the alienists appointed by Governor Dix to investigate the conditions at Matewan asylum for the criminal insane, if Clarence J. Shearn has his way.

In a statement issued last night Mr. Shearn, who is counsel for Thaw, says that such an examination of his client "would be farcical and I would not permit it." He cites that Doctors MacDonald and Flint testified for the prosecution in the Thaw murder trial that Thaw was insane, and adds:

"Thaw would have a fine chance at their hands. Dr. Ferris, superintendent of the lunacy commission, whose administration is being investigated by these two experts, was also hired with them and testified with them against Thaw. It is all one happy family."

SIBLEY ESCAPES TRIAL.

Election Account Not to Be Audited as He Is Dying.

Franklin, Pa., April 13.—David B. McClinton, former chairman of the prohibition state committee, and John E. Gill, president of the Manufacturers' Light & Heat company, petitioned court yesterday to discontinue the proceedings which they, with others, brought some months ago to compel an audit of the election expense account of former Congressman C. Sibley. This step was taken, it was announced, because of an illness from which it is said Mr. Sibley will not recover. It is expected other petitioners for the audit will follow this movement and that the audit never will be made.

GRAIN RATES EAST
ARE UPHELD

In Decision By the Interstate Commerce Commission Rendered Yesterday Afternoon.

Washington, D. C., April 13.—In a decision yesterday afternoon, the interstate commerce commission declined to make any reduction in ex-lake grain rates from Buffalo, N. Y., to eastern destinations, either on domestic or export traffic.

The proceeding, pending for many months, was instituted by the Chicago board of trade against the Atlantic City Railroad company, and many other eastern carriers and by the New York Central railroad and others. The complaints were not consolidated, but were heard together and are covered by a single opinion prepared by Commissioner Prouty.

Both complainants attacked the reasonableness of the rates of grain received at Buffalo by water from the west and shipped by rail from Buffalo to eastern points, in the one case for domestic consumption and in the other for export.

The Chicago board of trade maintained that the present rates divert traffic from the water-and-rail route to the all-rail route resulting in undue prejudice against Chicago. It urged that in charging a higher rate on ex-lake grain from Buffalo to the east than from Buffalo to the same destinations when the grain moved by the all-rail route, the carriers were guilty of unjust discrimination against the lake grain and, therefore, against Chicago.

The defendants replied that their ex-lake rate from Buffalo to Boston, for instance, was reasonable; that the rate from Chicago to Boston was competitive, and that the division of the Buffalo-to-Boston rate, acceptable as the price of engaging in this competitive business, ought not to be used as a standard to measure the reasonableness of their ex-lake rate from Buffalo.

The commission took the view of the carriers, pointing out that manifestly the lake-and-rail rate from Chicago to the east is reasonable and in addition it is materially lower than the all-rail rate. Substantially the same argument applied to the export traffic rates to eastern ports.

It was decided, therefore, to dismiss both complaints and leave the rates as they now exist, the commission holding that it could not find any unjust discrimination.

Sixty-Seventh Ballot Ends Deadlock in Iowa Legislature.

Des Moines, Iowa, April 13.—Judge William S. Kenyon, Republican, was elected U. S. Senator to succeed the late Senator Jonathan B. Dolliver on the 67th ballot in the Iowa legislature yesterday afternoon.

Kenyon Suits Taft.

Washington, April 13.—The election of William S. Kenyon for United States senator from Iowa was especially pleasing to President Taft because of Mr. Kenyon's official connection with the administration and because of his progressive attitude in many matters in which the president has been interested. The president said of Mr. Kenyon's election: "He will make an excellent senator because of his splendid equipment for the place. He is a good lawyer, and a man of courage and high ideals."

ON BOY'S TESTIMONY.

Salesman was awarded \$25,000 For the Loss of One Leg.

New York, April 13.—The testimony of Meyer Bernstein, a 12-year-old newsboy, outweighed that of 10 men before a jury in the supreme court yesterday and brought for Wm. B. Capell, a salesman, a verdict of \$25,000 for the loss of his leg.

Capell was run over by a taxicab owned by the New York Transportation company and he brought suit for \$50,000. When the suit came to trial yesterday the only witness Capell could get was the newsboy, from whom he had bought a paper just before the accident. Counsel for the company produced 10 eye-witnesses and from their testimony sought to establish contributory negligence, but the jury took the boy's version.

HEAVY SENTENCES
FOR THREE MEN

Guilty of Using the United States Mails Fraudulently in the Cotton Business.

Aberdeen, Miss., April 13.—Judge H. C. Niles in the federal district court here to-day sentenced J. W. Miller, who was found guilty of fraudulently using the mails, to seven years in prison and to pay a fine of \$10,000. L. C. Steele and C. H. G. Linde, who accepted the verdict of guilty on the same charge, were sentenced to two years' imprisonment and a fine of \$10,000 each.

The men were members of a cotton firm which failed several months ago. It was charged at the time of the failure that bogus bills of lading, amounting to \$7,000,000, had been issued by the firm. Indictments were found against the men, charging that fraudulent bills of lading were sent through the United States mails.

SEEK W. G. BROWN.

Various St. Albans Merchants Are Anxious To See Him.

St. Albans, April 13.—A large number of merchants are anxiously looking for a man who gave the name of W. G. Brown and who bought goods freely of them since his arrival in town, March 25, but without paying for them. Mr. Brown came to town as promoter of a potato chip industry and took a house for his family, consisting of his wife, a married daughter and her two children. He claimed to be an old-time resident of St. Albans, returning from Pittsburg.

When the merchants began to press him for payment they didn't get much satisfaction. Yesterday two of them went to his house and found it vacant, with the key in the front door. Some of the goods had been removed. It is reported that he told someone he was going to Montreal; but others believe he went to Montreal.

The Easiest Way.

A steam heating plant had been installed in the house of the new president of a small, conservative college. The president, startled by a break in the steam pipes, went in search of the college janitor. Being unfamiliar with his new surroundings he entered the library.

Dr. So-and-so," he inquired, his breath coming in gasps, "how can I find the janitor?"

"Well," the librarian replied in a slow drawl, "I find the surest way is to send him a postal card."—Success Magazine.

Horace L. Peverly Died Yesterday in Rutland, Aged 73.

Rutland, April 13.—Horace L. Peverly died yesterday at the age of 73. He had lived in Rutland about 43 years. He was a veteran of the Civil war and a member of Roberts post, being well known in this city through many years of services at his trade, which was that of painter and decorator.

Mr. Peverly had been confined to his bed since March 15 with heart disease, which brought the end.

Besides his wife, formerly Miss Elizabeth E. Potter of Northboro, Mass., he leaves two sons, Walter and Harry L. Peverly, both of Philadelphia, and three grandchildren.

Mr. Peverly was born in South Charleston, N. H. He enlisted July 12, 1861 at Northboro in the 15th Massachusetts infantry. He was twice wounded and for this cause was discharged from the service. The veteran was in many of the historic battles of the Civil war, including that of Antietam, where he received one of his wounds. He was a member of Roberts post, G. A. R.

GUILTY OF LARCENY.

But Respondent Was Tried on Charge of Burglary.

St. Albans, April 13.—In Franklin county court yesterday afternoon about four o'clock, the jury in the case of state vs. D. Frank Trombley, charged with the burglary of the Central Vermont railway station at Oakland, August 17 last, returned a verdict that the respondent was guilty of larceny. The only witness on the stand yesterday was a man by the name of St. Denier, for whom Trombley worked and to whom the money said to have been found on the person of the respondent when he was arrested might have been some of his wages.

Following the testimony of Mr. St. Denier, the defense rested and the arguments were made. Judge Zed S. Stanton then gave his charge and shortly after twelve o'clock the case was given to the jury. M. H. Alexander appeared for the respondent and the prosecution was conducted by State's Attorney George M. Hogan.

Mrs. Mary Profit was convicted this morning on the charge of keeping with intent to sell, and William Curry, who was arrested at the same time, was released, his case having been not pressed.

Up and Doing.

Not all city folks are as ignorant of the farmer's surroundings as the farmer sometimes suppose. This was evidenced by an incident in the stay of a young New Yorker on a New England farm.

"Well, young man," said the farmer to his city boarder, "you was up early and looking around, 'been out to hear the haycock crow, I suppose?" And the city chap winked at his hired man. "The city man smiled. "No," said he, "I'm merely been out tying a knot in a cord of wood."—Judge.

FELICITATE
DR. PEARSONSVermont Methodists Adopt
Congratulatory Resolutions

AT THE CONFERENCE TODAY

Supt. F. W. Lewis of the St. Johnsbury District Was Presented a Purse of Gold, Through Rev. P. A. Smith.

Waterbury, April 13.—The second day of the Vermont Methodist conference was opened at 8:30 this morning with devotional exercises by Rev. F. H. Roberts, followed by a fifteen-minute talk by Bishop Neely on what the Methodist church is. The conference proper was opened at 9 o'clock, after which the usual reading of records was held. Rev. Homer Eaton, D. D., was introduced, and after that the three district superintendents presented their reports.

The district reports were presented to-day. Through a misunderstanding, The Times published the report of the St. Johnsbury district yesterday. The reports of the Montpelier and St. Albans districts are as follows:

Montpelier District.

After mentioning several changes in the pastorate of some of the smaller churches, the superintendent spoke of the venerable Dr. A. L. Cooper, who had just passed his 87th milestone, with a shining face and a joyful heart, being a benediction to his associates. Two men of the district, Rev. J. Wesley Miller of Bethel and Rev. G. L. Wells of Wardboro, had been efficient members of the legislature last fall and Rev. A. W. Ford of Windsor, another man of the district, had been the chaplain of that body.

Upwards of \$800 had been expended in church and parsonage repairs at Proctorsville, \$500 at Wilder, the same sum at Bradford, \$225 at Bethel and \$400 at South Royalton, and smaller sums elsewhere. Larger sums should be raised for the salaries of the preachers, and as an illustration of the possibilities along this line he cited the case of West Berlin where 50 members and their friends paid \$800 salary last year and were willing to do the same this year for the same man. The superintendent urged the raising of money to hire an evangelist for the benefit of smaller communities that the cause and church might be aided through revivals. Some churches had done good by personal work, winning many to the Lord that way, among them being Bellows Falls and Thetford Center.

A destructive fire had visited the buildings at Claremont Junction union camp ground, thus injuring the property and militating against the success of the meeting. The work of the Sunday schools has, in many instances, been accomplished through establishing organized adult Bible classes, especially of men, and this method should be generally adopted. Epworth leagues have flourished where the pastor has been "on his job," the best year's work of this kind being at Brattleboro. Methodist brotherhoods have been organized at Brattleboro, Montpelier and Wilder.

From the standpoint of Supt. Smithers the federation of Methodist churches with those of other denominations was not advisable, instances in that district not proving satisfactory. At Montpelier seminary, in spite of a quarantine on account of diphtheria, and other hindrances, the year had been a prosperous one, although the school still needs much money for material improvements, which funds the versatile principal, whose praise is in all the churches, will ere long be able to secure, provided he is given the proper support by the churches and alumni.

In closing Mr. Smithers made various personal notations, including the marriage of the pastor at Windsor, the death of Mrs. Miriam D., the widow of the late Rev. John S. Little, and the decease of Mrs. Anderson, the mother of Mrs. Legg, the wife of the pastor at Bradford, and expressed his gratitude to God for his goodness and to the brethren for their kindness.

St. Albans District.

The present superintendent was called to this world by the death of Rev. George W. Hunt, who he thought should be able to pay. The woman was taken sick in her cell this morning as the result of her dissipation, and the city physician was called in.

SCARED AWAY
FROM \$26,000Six Burglars Bungled Job at
Winchester, N. H.

THEY TRIED TO ROB BANK

It Is Thought That Their Unfamiliarity With Nitroglycerine Was the Cause of Failure to Blow Open Vault.

Winchester, N. H., April 13.—Half a dozen burglars tried in vain to blow open the vault in the Winchester National bank at an early hour this morning. Had they succeeded they might have secured \$26,000, which was stored in the vault. It is supposed that the unfamiliarity of the burglars with nitroglycerine was the reason for the failure of their attempt to open the safe. The explosion failed to break open the vault, and without waiting to make another attempt the burglars fled, having been frightened from their work by the fear of capture.
